What is Snowflake?

Evanston 6th-8th grade students have been living it up at Snowflake since it was first held in our community, in 2001. The event aims to teach attendees important life skills such as decision-making, communication, and problem-solving, in the coolest and most interactive ways possible. Snowflake engages middle school, high school, and Northwestern students, as well as adults from the community, in order to create a fun and meaningful experience for all involved.

Featured Presentations

Imagination Theater

Imagination Theater provides diverse audiences with original, dynamic, participatory theatrical programming that enhances well-being and creates a more civil, safe society. For over 45 years, Imagination Theater has been using interactive theater to help audiences explore complex social issues. Performances feature scripted scenes, facilitated discussion, and audience participation. Audience members work with the actors to guide each scene toward a more positive conclusion.

The LeaderShop

The LeaderShop empowers youth to become community-minded individuals through diverse programs that foster confidence, knowledge and leadership. LeaderShop participants are encouraged to express themselves by getting involved in the diverse programs, which are designed to give them the tools, confidence and passion to want to make a difference in their community. The LeaderShop takes a preventive position in helping today's youth grow into productive leaders in their communities.
